EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Lynn Augspurger (Reg. No. 24,227) on 7/29/2008.

The application has been amended as follows:

In claim 1, line 12, change "cache" to --cache--.

In claim 1, line 24, after "established" insert --until--.

2. The following is an examiner's statement of reasons for allowance:

3. **Claim 1** recites the limitation "*and when said supervisor software program is moving a coherency region from one distinct set of old processing nodes to another distinct set of processing nodes it is leaving behind old cache entries for the coherency region on old nodes and ensures that these old cache entries will be seen by incoming storage requests originating from new processing nodes and that cache entries for main storage addresses in the new processing nodes will not be established until the old entries are invalidated*". Said limitation is taught by the specification as originally filed at least at second claim 27, renumbered as claim 31 and cancelled in the response

submitted 12/23/2008. Said limitation, in combination with the other recited limitations of claim 1, is not taught or suggested by the prior art of record.

4. **Claims 2-27** depend from claim 1, and are considered allowable for at least the same reasons as claim 1.

5. **Claim 28** recites the limitation "*said supervisor software creates a table in the multiprocessor computer system for each processing node which table has an entry for every Coherency Region ID that is currently allowed to be dispatched on said processing node*". Said limitation is taught by the specification as originally filed at page 11 line 30 through page 12 line 2. Said limitation, in combination with the other recited limitations of claim 28, is not taught or suggested by the prior art of record.

6. **Claims 29-30** depend from claim 28, and are considered allowable for at least the same reasons as claim 28.

7. Foster et al. (US 7,065,761) teaches the use of tables for managing logical partitions, but does not teach or suggest said limitations.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to JARED I. RUTZ whose telephone number is (571)272-5535. The examiner can normally be reached on M-F 8:00 AM - 4:30 PM.
